Prakhar Sharma

AI / ML / DATA

Trivandrum, Kerala, India | +91 7994454919 | praksediting5@gmail.com | linkedin.com/in/prak05

SUMMARY

Computer Science and Engineering student focused on practical machine learning, retrieval-augmented generation, data workflows, and responsible AI prototypes. Builds explainable, testable applications with Python and clear evidence trails from source data to user-facing output.

SKILLS

Programming: Python, Java, SQL, JavaScript

Machine learning: scikit-learn, MultiOutputClassifier, RandomForest, TensorFlow, PyTorch

AI and retrieval: RAG, NLP, PubMed retrieval, embeddings, evaluation

Applications: FastAPI, Streamlit, Jupyter, REST APIs, Git, Linux, testing

EXPERIENCE

KSERC regulatory automation project | Project / internship work | 2026

- Worked on extracting tables from regulatory PDFs, retrieving relevant regulations, applying calculation logic, and presenting validation-ready outputs.
- Contributed Python backend and document-processing components within the project scope.

AI and data internships | Edunet Foundation / IBM SkillsBuild / A.N.D. Intern | 2024

- Completed guided AI, data-science, visualization, and model-focused work through Edunet Foundation, IBM SkillsBuild, and A.N.D. Intern.

VirtuNexa | Android Developer Intern | Dec 2024 - Jan 2025

- Developed and tested Android features with Java and Kotlin, building practical software and debugging experience.

SELECTED PROJECTS

MediScribe: FastAPI and Streamlit medical-information application with RAG, PubMed retrieval, citations, and tests.

MedBuddy: Medical AI prototype exploring ingestion, chunking, retrieval, re-ranking, citations, and evaluation.

Smart Irrigation: Python and Streamlit project using scikit-learn MultiOutputClassifier with RandomForest for irrigation recommendations.

Fasal Saarthi: Agriculture project using IBM Watsonx.ai AutoAI and IBM Cloud for data-driven crop recommendations.

EDUCATION

B.Tech, Computer Science and Engineering - Rajadhani Institute of Engineering and Technology, Kerala | Expected 2027

LEADERSHIP

- Founder, Vidya Sadhnam - hosted student workshops on Linux, GitHub, cloud, AI, and data.
- MuLearn Alumni Cell Lead - supported student onboarding, partner communication, and community events.

ATS format: one column, standard headings, plain text separators, no graphics or tables.
