Prakhar Sharma

AWS / CLOUD ENGINEERING

Trivandrum, Kerala, India | +91 7994454919 | praksediting5@gmail.com | linkedin.com/in/prak05

SUMMARY

Computer Science and Engineering student with project experience in AWS serverless architecture, Terraform, Google Cloud, IBM Cloud, backend services, and local-first development. Designs cloud-aware systems while keeping a runnable local path and documenting infrastructure clearly.

SKILLS

Cloud: AWS Lambda, API Gateway, DynamoDB, Cognito, S3, Google Cloud, IBM Cloud

Infrastructure: Terraform, IAM concepts, Docker, Linux, local/cloud configuration

Backend: Python, FastAPI, REST APIs, Java, JDBC, SQL

Application tools: Git, Streamlit, testing, document processing, RAG

EXPERIENCE

KSERC regulatory automation project | Project / internship work | 2026

- Contributed backend, PDF extraction, retrieval, validation, and document-export work for a regulatory analysis project.
- Added local/cloud configuration and Terraform components within the project scope.

Innovate Intern | Google Cloud Intern | 2024

- Completed a Google Cloud-focused internship project covering cloud computing and securing AI/ML workloads on Google Cloud.

Edunet Foundation / EISystems Technologies | Cloud and front-end internship work | 2024

- Completed guided cloud, front-end, API, and security-oriented work through internship programs.

SELECTED PROJECTS

LinkedIn Indo: Terraform-defined AWS architecture using API Gateway, Lambda, DynamoDB, and Cognito; AWS stack is documented as project work and is not claimed as active deployment.

KSERC regulatory automation: Cloud-aware Python workflow for PDF/table extraction, regulation retrieval, calculations, validation, and exports.

Fasal Saarthi: IBM Watsonx.ai AutoAI and IBM Cloud agriculture project for data-driven crop recommendations.

MediScribe: FastAPI and Streamlit application combining RAG, PubMed retrieval, citations, and tests.

EDUCATION

B.Tech, Computer Science and Engineering - Rajadhani Institute of Engineering and Technology, Kerala | Expected 2027

LEADERSHIP

- Founder, Vidya Sadhnam - hosted student workshops on Linux, GitHub, cloud, AI, and data.
- MuLearn Alumni Cell Lead - supported student onboarding, partner communication, and community events.

ATS format: one column, standard headings, plain text separators, no graphics or tables.
