Prakhar Sharma

MANAGEMENT | HR | COMMUNITY OPERATIONS

Trivandrum, Kerala, India | +91 7994454919 | praksediting5@gmail.com | linkedin.com/in/prak05

PROFESSIONAL SUMMARY

Computer Science student and community builder combining technical fluency with event operations, stakeholder communication, partner engagement, candidate coordination, public speaking, and team leadership. Experienced in organising workshops, managing attendees, coordinating speakers, and translating technical initiatives into accessible programs.

TECHNICAL AND PROFESSIONAL SKILLS

Event management, partner engagement, HR coordination, candidate sourcing, stakeholder communication, public speaking, community growth, operations, logistics, workshop design, project coordination, conflict management, technical writing, Python, JavaScript, Git, AWS, Google Cloud, AI/ML fundamentals

EXPERIENCE

Founder — Vidya Sadhnam | Sep 2025–Present

- Built a student learning community and organised faculty-supported workshops on Linux, GitHub, cloud, AI, data, and professional growth.
- Hosted GitHub Geeks and Data Manipulators workshops and coordinated speakers, venue, audience flow, and technical programming.

Alumni Cell Lead / Partner Engagement — µLearn Foundation | Jan 2026–Present

- Coordinated student onboarding, partner outreach, HR communication, candidate profile sourcing, follow-ups, and regional peer-led growth.
- Managed a large student community and supported events involving keynote coordination, logistics, institutional integration, and public engagement.

AWS Student Builder Group / Community Leadership — RIET | 2026

- Organised and led cloud initiatives, AWS workshops, and the AWS SBG RIET student exposure talk show with a focus on career readiness.

SELECTED PROJECTS

AWS × µLearn North Expansion — Supported the collaboration connecting AWS Student Builder Group activity with RIET student exposure, workshops, and cloud learning.

LinkedIn Indo — Designed a safe drafting workflow that turns personal evidence into publish-ready posts while keeping review and publishing under user control.

Report Indo — Built a structured report-generation tool for seminar, mini-project, and project documentation with editable placeholders and Word output.

KSERC Autonomous Regulatory Agent — Supported a complex AI automation initiative requiring stakeholder communication, domain understanding, validation, and clear documentation.

Community Portfolio — CSI and IEEE participation, debate competition recognition, school leadership, cultural performance, and technical workshop coordination.

EDUCATION

B.Tech, Computer Science and Engineering — Rajadhani Institute of Engineering and Technology, Kerala | Expected 2027

LEADERSHIP AND RECOGNITION

- Hosted and coordinated technical events through Vidya Sadhnam, including GitHub Geeks, Data Manipulators, and AWS SBG student exposure programming.
- IEEE/CSI technical participation, debate competition recognition, two-time School House Captain, public speaking, music, and cultural activities.
