PROFESSIONAL SUMMARY

Computer Science and Engineering student expected to graduate in 2027, with hands-on experience in AI, cloud computing, data science, web development, Android development, and technical community leadership. Built practical prototypes involving RAG, document processing, machine learning, serverless workflows, and user-facing developer tools. Seeking software engineering, cloud engineering, or AI/ML internships.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, SQL, HTML, CSS

AI/ML: Machine learning, data analysis, NLP, RAG, TensorFlow, PyTorch, Jupyter, Google Colab

Cloud and DevOps: AWS, Google Cloud, IBM Cloud, Terraform, Docker, serverless architecture, IAM concepts

Frameworks and tools: FastAPI, Streamlit, Java Swing, JDBC, Git, GitHub, REST APIs, Linux

Professional: Technical writing, project coordination, event management, public speaking, peer learning

SELECTED EXPERIENCE

Project Intern — VirtuNexa | Dec 2024–Jan 2025

- Developed and tested Android application features using Java and Kotlin.
- Improved UI/UX implementation, debugging, modularity, and application performance in collaboration with a project team.

Artificial Intelligence Trainee — Edunet Foundation / IBM SkillsBuild | Nov 2024–Dec 2024

- Built a foundation in machine learning, data processing, neural networks, AI tools, and responsible AI through guided practical work.

Cloud Computing Intern — Innovate Intern | Sep 2024–Nov 2024

- Studied Google Cloud concepts and applied cloud principles to AI/ML workloads, deployment, and security-oriented use cases.

Data Science Intern — A.N.D. Intern | Jun 2024–Jul 2024

- Applied data manipulation, statistical analysis, visualization, and problem-solving to practical datasets.

Cloud and Front-End Intern — Edunet Foundation / AICTE / IBM SkillsBuild |

Jun 2024–Aug 2024

- Developed responsive front-end skills with HTML, CSS, and JavaScript and explored AI and cloud application workflows.

SELECTED PROJECTS

LinkedIn Indo — AI-assisted LinkedIn drafting tool

- Built a local-first and AWS-capable drafting workflow with persona training, style samples, revision history, validation, and human approval before publishing.
- Implemented Python services, local ML fallbacks, provider selection, and Terraform infrastructure for Lambda, API Gateway, Cognito, and DynamoDB.

KSERC Autonomous Regulatory Agent

- Worked on a regulatory-analysis system for PDF ingestion, table extraction, retrieval, financial calculations, compliance checks, and audit-oriented outputs.
- Extended the system toward local and AWS execution with document storage, object storage, Bedrock integration, and Terraform.

MediScribe / MedBuddy

- Built an evidence-oriented medical AI ecosystem combining document ingestion, chunking, retrieval, re-ranking, grounded answers, citations, evaluation, and clinical workflow interfaces.

Fasal Saarthi — AI crop recommendation system

- Used IBM Watsonx.ai Studio and AutoAI to analyze soil and environmental features and expose crop recommendations through client examples.

Agri-Smart Pro — intelligent irrigation system

- Developed an ML-powered dashboard with automatic, manual, and scheduled irrigation modes, sensor monitoring, historical analytics, and event logs.

KNB Bank Management System

- Built a role-based Java Swing banking application using Oracle DB and JDBC with admin, manager, and client workflows, transactions, approvals, and audit logging.

LEADERSHIP AND COMMUNITY

- MuLearn Alumni Cell Lead; local records describe coordination of a 600-member Kerala community.
- Founder of Vidya Sadhnam; built a student community with 300+ direct reach and organised large workshops.
- Active participant in CSI and IEEE technical events, workshops, and collaborative learning programs.

- School House Captain twice; coordinated school events and student teams.

EDUCATION

Bachelor of Technology, Computer Science and Engineering

Rajadhani Institute of Engineering and Technology, Kerala | Expected 2027

CERTIFICATIONS AND TRAINING

AWS certifications and cloud training; IBM SkillsBuild AI and data science; Google Cloud-focused internship; IBM deep learning and data science badges; CSI cybersecurity and Android workshop; IEEE web development and 3D printing workshops; AICTE and Edunet Foundation programs.

LANGUAGES

English, Hindi, Malayalam, Gujarati, Punjabi, Tamil
