SUMMARY

Computer Science and Engineering student with hands-on experience building Python and Java applications, REST services, document-processing workflows, and user-facing prototypes. Comfortable moving from requirements to tested implementation with Git, SQL, and cloud-aware design.

SKILLS

Languages: Python, Java, JavaScript, SQL

Backend and web: FastAPI, REST APIs, Streamlit, HTML, CSS

Data and AI: RAG, NLP, scikit-learn, TensorFlow, PyTorch, Jupyter

Engineering: Git, Linux, Docker, JDBC, Oracle, testing

EXPERIENCE

KSERC regulatory automation project | Project / internship work | 2026

- Worked on PDF ingestion, table extraction, regulation retrieval, calculations, validation, and document export for an electricity-regulation analysis workflow.
- Implemented backend and local/cloud execution components with Python, storage abstractions, and Terraform within the project scope.

VirtuNexa | Android Developer Intern | Dec 2024 - Jan 2025

- Developed and tested Android application features using Java and Kotlin.
- Practised UI implementation, debugging, and maintainable mobile code within an internship team.

Innovate Intern, Edunet Foundation, EISystems Technologies, A.N.D. Intern | Cloud, AI, web, and data internships | 2024

- Completed guided work across Google Cloud, AI, cloud/front-end development, data science, REST APIs, and security concepts.

SELECTED PROJECTS

MediScribe: FastAPI and Streamlit medical-information workflow using RAG, PubMed retrieval, citations, and tests.

LinkedIn Indo: Local-first Python drafting assistant with validation, revisions, and a Terraform-defined AWS architecture.

Smart Irrigation: Python and Streamlit agriculture project using scikit-learn MultiOutputClassifier with RandomForest.

KNB Bank Management System: Java, JDBC, and Oracle application covering account, transaction, approval, and audit workflows.

EDUCATION

B.Tech, Computer Science and Engineering - Rajadhani Institute of Engineering and Technology, Kerala | Expected 2027

LEADERSHIP

- Founder, Vidya Sadhnam - hosted student workshops on Linux, GitHub, cloud, AI, and data.
- MuLearn Alumni Cell Lead - supported student onboarding, partner communication, and community events.

ATS format: one column, standard headings, plain text separators, no graphics or tables.
